Stachnauer

(1885-50)

Handwritten text, possibly a title or header, is visible at the top of the page. It appears to be written in a cursive or semi-cursive script, but the specific words are illegible due to the image quality.

Handwritten text is visible at the bottom of the page, likely a signature or footer. It is written in a cursive script and is mostly illegible. There are some faint markings that could be interpreted as "1881" on the left and "G. S." on the right.

11-12-1911

1. The first part of the paper is devoted to a general discussion of the problem of the existence of solutions of the system of equations

which are satisfied by the functions  $u_i$  and  $v_i$  in the case when the functions  $f_i$  and  $g_i$  are continuous and the functions  $h_i$  and  $k_i$  are piecewise continuous. In this case the functions  $u_i$  and  $v_i$  are also piecewise continuous. The second part of the paper is devoted to a detailed study of the case when the functions  $f_i$  and  $g_i$  are continuous and the functions  $h_i$  and  $k_i$  are piecewise continuous. In this case the functions  $u_i$  and  $v_i$  are also piecewise continuous. The third part of the paper is devoted to a detailed study of the case when the functions  $f_i$  and  $g_i$  are continuous and the functions  $h_i$  and  $k_i$  are piecewise continuous. In this case the functions  $u_i$  and  $v_i$  are also piecewise continuous.

2. The second part of the paper is devoted to a detailed study of the case when the functions  $f_i$  and  $g_i$  are continuous and the functions  $h_i$  and  $k_i$  are piecewise continuous. In this case the functions  $u_i$  and  $v_i$  are also piecewise continuous.

3. The third part of the paper is devoted to a detailed study of the case when the functions  $f_i$  and  $g_i$  are continuous and the functions  $h_i$  and  $k_i$  are piecewise continuous. In this case the functions  $u_i$  and  $v_i$  are also piecewise continuous.

L. 500 A.

Therapsid - a group of mammals  
characterized by the presence of  
a single bone in the lower  
jaw, the hyomandibula, which  
is derived from the hyomandibula  
of the fish-like ancestor.

The first group of  
mammals, the Monotremes,  
are the only mammals that  
lay eggs and have a  
cloaca. The Placental  
mammals, the Eutherians,  
are the most common group.

Case 6<sup>2</sup>

-91.

1. The first part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system (1) as  $t \rightarrow \infty$ . It is shown that the solutions of the system (1) tend to zero as  $t \rightarrow \infty$  if and only if the matrix  $A$  is Hurwitz.

(for revision)

1. The first part of the paper is devoted to a general discussion of the problem of the existence of solutions of the system of equations (1) under the conditions (2). It is shown that the system (1) has a solution if and only if the conditions (2) are satisfied. The proof is given in the form of a theorem.

2. In the second part of the paper, the problem of the construction of the solution of the system (1) is solved. It is shown that the solution can be constructed by the method of successive approximations. The proof is given in the form of a theorem.

3. In the third part of the paper, the problem of the construction of the solution of the system (1) is solved. It is shown that the solution can be constructed by the method of successive approximations. The proof is given in the form of a theorem.

4. In the fourth part of the paper, the problem of the construction of the solution of the system (1) is solved. It is shown that the solution can be constructed by the method of successive approximations. The proof is given in the form of a theorem.

5. In the fifth part of the paper, the problem of the construction of the solution of the system (1) is solved. It is shown that the solution can be constructed by the method of successive approximations. The proof is given in the form of a theorem.

1. The first part of the paper is devoted to a general discussion of the problem of the origin of life.

2. The second part is devoted to a discussion of the problem of the origin of the first living organisms.

3. The third part is devoted to a discussion of the problem of the origin of the first cells.

4. The fourth part is devoted to a discussion of the problem of the origin of the first organisms.

5. The fifth part is devoted to a discussion of the problem of the origin of the first plants.

6. The sixth part is devoted to a discussion of the problem of the origin of the first animals.

7. The seventh part is devoted to a discussion of the problem of the origin of the first man.

8. The eighth part is devoted to a discussion of the problem of the origin of the first human beings.

9. The ninth part is devoted to a discussion of the problem of the origin of the first human societies.

10. The tenth part is devoted to a discussion of the problem of the origin of the first human civilizations.

1. Introduction

page 52, 174

The first part of the book is devoted to a description of the various types of plants which are found in the different regions of the world. The author gives a detailed account of the distribution of the various groups of plants, and of the factors which influence their growth and development.

The second part of the book is devoted to a description of the various types of animals which are found in the different regions of the world. The author gives a detailed account of the distribution of the various groups of animals, and of the factors which influence their growth and development.
